PROFESSIONAL EXPERIENCE

MAY 2021 – PRESENT
SKILLS DEVELOPMENT FACILITATOR / DATA SCIENTIST DEVELOPER, LE SONTO 353813 PTY LTD

- Led and facilitated training sessions on Data Analysis and machine learning model creation.
- Designed team and individual programming courses in Python and SQL.
- Maintained meticulous records of curriculum and training materials.
- Gathered feedback from participants to continuously improve training quality.
- Ensured the delivery of free, accessible training to promote inclusivity.
- Analysing the requirements and designing the Software
- Developing and testing the Software
- Deploying the Software
- Supporting and maintaining the Software

JUL 2023 – NOV 2023
PEER MENTOR & PYTHON TUTOR, MOVE BEYOND CONSULTING (MBC)

- Utilized my technical expertise and strong communication skills to support classmates in mastering Python basics.
- Designed and implemented supplemental lessons, mentored individuals, and small groups, and fostered a culture of peer learning.
- Successfully aided numerous peers in overcoming coding challenges and achieving their learning goals.

OCT 2020 – APR 2023 (VOLUNTEERING)
TRAINING PORTFOLIO, WOMEN IN BIG DATA SA CHAPTER (WIBDSA)

- Organized and facilitated online training meetings and workshops.
- Played a key role in structuring training programs.
- Contributed to the development of curriculum and training materials.
- Collected valuable feedback from participants to enhance training quality.

OCT 2020 – NOV 2021
ANALYTICS ENGINEER, THE CLICK FOUNDATION (CLICK LEARNING)

- Conducted in-depth Data Analysis.
- Utilized Python Programming for analytical tasks.
- Contributed to process automation for increased efficiency.
- Specialized in Data Visualization and Dashboarding.
- Applied Leaner Management principles for workflow optimization.
- Compiled comprehensive reports based on analysed data.
- Delivered impactful presentations to stakeholders.

AUG 2019 – OCT 2020 (VOLUNTEERING)
TRUSTEE, SS LAGO BODY CORPORATE

- Collaborated in the management of day-to-day operations of the Body Corporate complex alongside the managing agent.
- Contributed to budgeting processes to ensure financial stability and responsible fiscal management.
- Participated in vetting processes for relevant decision-making.

FEB 2020 – SEP 2020 (CONTRACT)
JNR PLATFORM ENGINEER, TENTPOLE DATA SCIENCES

- Conducted Data Analysis and implemented Data Visualization and Dashboarding techniques.
- Utilized Python programming for automation and streamlined processes.
- Managed databases to ensure efficient data storage and retrieval. Applied Python programming for data analytics and automation.
- Compiled reports and created presentations to communicate findings effectively.

JUL 2020 (PRIZE WINNER CONSULTANT)
RESEARCH DATA ANALYST, FINEAZY LTD

- Conducted research on specified data and finance/insurance topics. Gathered and captured data for analysis. Performed data analysis to derive meaningful insights. Employed data visualization techniques to communicate findings effectively. Formulated recommendations based on the outcomes of data analysis and presented research findings.

AUG 2019 – DEC 2019 (EDSA SPONSOR INTERNSHIP/LEARNERSHIP)
DATA SCIENTIST, TELKOM SA SOC LTD

- Engaged in data analysis, supplying insights through in-depth examination of datasets. Developed and designed data visualizations and dashboards for effective communication. Applied Python programming skills to manipulate and analyse data. Contributed to the building of prediction models to derive valuable insights.

JAN 2019 – DEC 2019 (INTERNSHIP/LEARNERSHIP)
DATA SCIENTIST, EXPLORE SOFTWARE PTY LTD

- Managed databases, ensuring efficient data storage and retrieval. Conducted thorough data analysis, extracting meaningful insights. Developed data visualizations and dashboards for effective communication.
- Utilized Python programming for data manipulation and analysis.
- Applied professional communication skills in conveying complex data-related concepts.
- Contributed to the building of prediction models for informed decision-making.
- Gained an introduction to unsupervised learning techniques.
- Developed soft skills essential for collaborative work and effective teamwork.

JUN 2013 – JAN 2019
SERVICE SPECIALIST, MOMENTUM RETAIL (MMI HOLDINGS PTY LTD)

- I played a key role in delivering exemplary customer service to clients through prompt evaluation and response to telephonic and electronic inquiries. Ensuring effective and consistent service delivery to both internal and external clients, actively engaging and retaining clients within the existing portfolio. I took charge of achieving team targets and assumed responsibility for managing reputational and financial risks associated with interactions.
- I maintained strong relationships, both internally and externally, through successful networking to ensure the seamless delivery of client-centric services. Additionally, I demonstrated a commitment to delivering high-quality service to clients, contributing to overall client satisfaction and retention.

JUN 2006 – MAY 2013
LABORATORY ASSISTANT/TECHNICIAN, UIS ANALYTICAL SERVICES PTY LTD

- Efficiently conducted primary and secondary sample preparations, ensuring accurate analysis.
- I mastered XRF, Wet-Chemistry, and Gravimetric techniques for diverse materials.
- Prepared and verified analysis reports, contributing to timely and reliable client deliverables.
- Maintained lab equipment calibration and integrity for optimal data quality.

PROJECT(S)

PROJECT NAME	DATES	OUTPUT
LeSonto Medical	Feb – Present	Tracking software and predictive Model
Augility	Feb – Dec 2024	Case Management and Compliance tracking software.
Fraudulent Transaction Analysis: A Case study of JPMorgan Chase & Co.	Jul – Oct 2023	Fraud transaction prediction model.
Learner Management	Jan - Nov 2021	Dashboard and automation model.
Everest	Feb – Sept 2020	Automation model and dashboarding.
Urban Air Pollution Challenge	Apr 2020	Air quality prediction model.
AI4D Predict the Global Spread of COVID-19	Mar– Apr 2020	Spread of COVID-19 prediction model.
Womxn in Big Data South Africa: Female-Headed Households in South Africa	Nov 2019 – Feb 2020	Predictive model that accurately estimates the percentage of households per ward that are female-headed and living below a particular income threshold.
Standard Bank Tech Impact Challenge: Xente Credit Scoring Challenge	Aug – Dec 2019	Credit default of ecommerce client's prediction model.
Customer churn: Telecommunications	Aug – Dec 2019	Churn prediction model and a dashboard.
Understanding Johannesburg Traffic	Jul 2019	Path, time, and day recommender system.
Machine Learning with a Heart	Jul 2019	Potential heart disease prediction model.
Personality Profile Detection	Jul 2019	Personality assignment model.
Property Prices: Advanced Regression Techniques	May – Jun 2019	House prices prediction model.
Cape Town Water Crisis	Jan – May 2019	The supply, demand, and draught prediction dashboard.

TRAINING AND CETIFICATIONS

NOV 2023
DATA SCIENCE & AI, DEUTSCHE GESELLSCHAFT FÜR INTERNATIONALE ZUSAMMENARBEIT (GIZ) GMBH

- Completed an intensive bootcamp for women in data science and AI sponsored by INTEL, GIZ & UNISA.
- Coding Basics with Python, Data & Statistical Analysis, Data Visualization, and Data Ethics.
- Developed Communication & Presentation Skills, gained insights into entrepreneurship, and explored AI ethics and bias.
- Mastered Machine Learning Fundamentals and User-centric product design through practical projects.
- Received specialized training in **INTEL AI for Current Workforce levels 100, 200, and 300.**
- Recognized with the "**Best Financial Engineering Project**" award for outstanding project work.
- Received the "**Peer Appreciation Award**" for collaborative and supportive contributions during the bootcamp.

DEC 2019
ADVANCED DATA SCIENCE CERTIFICATE, EXPLORE DATA SCIENCE ACADEMY (EXPLORE AI)

- I acquired expertise in Database Management, Data Analysis, Data Visualization, and Dashboarding.
- Proficient in Python Programming for data science applications.
- Demonstrated skills in Professional Communication and Prediction Model Building.
- Gained insights into Unsupervised Learning techniques.
- Honored with **a distinction (Black Belt)** for exceptional performance.
- Secured second place in the Kaggle EDSA Holiday Challenge, displaying problem-solving capabilities and competitiveness.

NOV 2018
BACHELOR OF SCIENCE, UNIVERSITY OF SOUTH AFRICA (UNISA)

- Attained a National Qualifications Framework (NQF) Level 7 degree, majoring in **Mathematics and Physics**.

JUN 2016
LEADERSHIP & MANAGEMENT CERTIFICATE, MMI HOLDINGS PTY LTD (MOMENTUM RETAIL)

- Completed the Personal Responsibility in Delivering Excellence (PRIDE) program, a comprehensive **self-leadership and management** initiative, enhancing skills in effective leadership and personal accountability.

SKILLS

SKILLS CLASS	SKILL
Computer Literacy	Microsoft Office (Office, SQL Server, Visio, Teams, Outlook), and Google Workspace Suite.
Programming Languages	Python, R, DAX, SQL.
Integrated Development Environment (IDE)	VS Code, PyCharm, Jupyter (Lab, Notebook), Spyder, Google Colab.
Visualization Tools	PowerBi, Looker.
Relational Database Management Systems (RDBMS)	SQLite, MySQL, SQL Server.
Cloud	AWS (S3, IAM, Billing, EC2, Athena, Glue, CodeComit), Google (BigQuery, Google Looker); Terraform; Serverless; Microsoft Azure.
Data Processing	Mining, Collection, Engineering, Manipulation, Interpretation, Visualization, and Analysis (Exploratory, Inferential, Casual, Mathematical, Statical, Descriptive, Diagnostic, Predictive, Prescriptive).
Artificial Intelligence (AI)	Natural Language processing (NLP), Machine Learning, Machine Vision, Deep Learning.
Communication	Presentation, Storytelling, Technical writing, Business insights, Data Visualization, Listening, social media, soft skills, Technical Report Compilation.
Research	Fundamental, Applied, Casual, Action, Classification, Comparative, Deductive, Cross-sectional, Laboratory, Field, Policy and Exploratory.
Customer Service	Excellent customer service skills.
Leadership	Proven leadership skills.
